

## ***Tax Day Slogans and Cheers***

Tax Work, Not Wealth!  
Our Kids Chill! Yours Pay the Bill!

No Justice? No Problem!

**What Do We Want?** Daddy's Money!

**How Do We Want it?** Tax Free!

Mansions, Yachts, Big Vacations!  
No more charities and foundations!

Let Workers Pay the Tax,  
So Investors Can Relax!

C'mon, tax YOUR pay,  
so OUR dynasty won't go away!

Down with meritocracy!  
Save our aristocracy!

### ***Talking Points:***

Why **can't** we take it with us?

What better way to support America's mom and pop stores than to protect the heiresses of the Wal-Mart fortune?

**Everyone knows people get taxed for working. How dare you tax us, we've never worked a day in our lives!**

If your dad leaves you a paltry \$4 million estate, you get to keep it all, tax-free. But if your golden goose egg is \$40 million you have to pay tax on some of it. You can see the injustice here.

Only the richest 1% of Americans pays the Estate Tax. This is discrimination, and we're tired of being forced to ride in the back of the proverbial limo.

Think of all that Paris Hilton has done for the economy. By repealing the estate tax, future Paris Hiltons can build on her good works.

Repealing the estate tax will cost the treasury \$1 trillion over the next 10 years. We offer some ideas to close the gap:

- Close public libraries
- Privatize the military
- Privatize the local Police and Fire Departments
- Let the Pharmaceutical and Insurance industries take over Medicare and Medicaid.
- Privatize the National Park System

### **What you can do to help close the gap in your community:**

- Close the Local Library
- Lower salaries for public servants like Police and Fire personnel.
- Raise city and state tax on workers.
- Cut local budgets for schools, healthcare, public works and infrastructure.
- Lower pensions for State and City Workers.
- Import low wage migrant teachers from Mexico and India

It's not how many yachts you have, but how many you can leave to your kids.
