 For Services Rendered: Making Us Richer!

We all know that sacrifice is important. Namely, your sacrifice is required in order to secure the financial profits and security of corporate CEOs, political lobbyists, and other Billionaires For Bush. Thankfully, the Bush Administration has already slashed funding for the silly things that benefit non-Billionaire Americans--education, healthcare, police, and other investments in your future. Even better, we're planning deep cuts in Social Security, Medicare, environmental compliance, and more. You know what they say: *Your pain, our gain!*

Remember, you are doing your patriotic duty as the glorious Bush administration runs up record debt, gives huge tax breaks to the super-rich, and provides Halliburton with even more multi-billion-dollar no-bid contracts. The Bush administration therefore assesses you, the average American taxpayer, for the following expenses*:

| Hurry! Every day you wait, the national debt increases by \$2.2 billion dollars! | |
| *Please note that these fees are owed by every living American, and are transferable to your heirs. Of course, their share will be even larger--as long as we stay in power, that is. | |
